

MY LIFE IN IRELAND

EDUCATION AND SCHOOL IN IRELAND

The standard of schools and education in Ireland is high. Education is compulsory for children from ages six to 16, and expat children are usually eligible to attend local Irish schools.

Education in Ireland consists of state-funded public or national schools and private schools. Irish schools include religious schools, non-denominational schools and schools which teach the national curriculum in Gaelic.

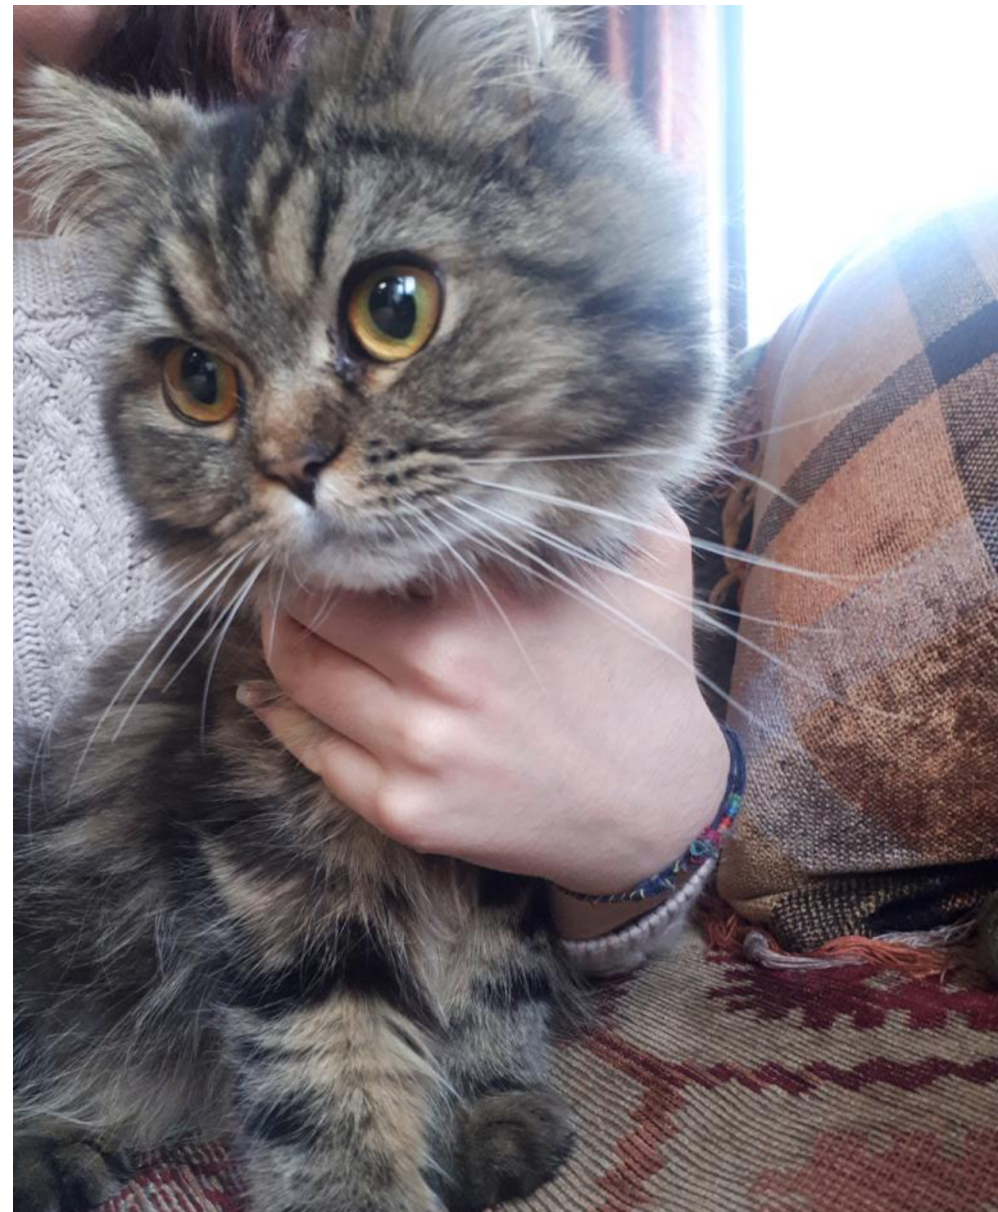

The main language of instruction at Irish schools is English. Gaelic classes are part of the local curriculum but foreign children are not required to learn the language.

EXTRACURRICULAR ACTIVITIES

The school organizes a lot of activities such as school trips, soccer matches, musicals etc..
